

Colleges across the nation are reporting the amount of recycled trash collected each week, and we want YOU to be involved.

The tournament begins on February 3 and runs through March 28, 2015.

Here is what you will need to do during the tournament.

1. Come to SDI where we will have some hot coffee and recycling information for you.
2. Pick up the weighing kit from SDI and walk to the dumpster area where, thanks to our maintenance department, the recycled materials will be waiting for you.
3. Using the scale, weigh the materials and record the weight on a piece of paper.
4. Place the weighed materials in the dumpster.
5. Bring the weighing kit back to SDI and pick up your Earth Sticker.
6. Proudly wear your sticker knowing that you helped reduce campus Greenhouse Gas Emissions to make this world a cleaner place!

Please contact Rebecca Edler, Sustainability Coordinator if you are up to the challenge at extension 3043 or redler@menominee.edu.
